## **FPMRS Research Conference**

Case Conference: Pelvic floor fellows will organize the list of cases and present clinical cases for discussion. Cases with bowel symptoms can be presented at Tuesday case conference if possible to allow for GI attendance.

Pelvic Floor Journal Club: Fellows will organize and present 2 articles or readings each. Possible articles include: a recent article of interest, an article that addresses a clinical question, or a landmark/ important/ historical paper in the field. Fellows will email out the articles 1 week in advance.

Research Discussion: The purpose of the research meetings will be to present research in progress for discussion and feedback. The discussion will be facilitated by one of the members of the Pelvic Floor team. Please email the facilitator agenda items prior to the meeting.

Abstract Discussion: Fellows will organize and present interesting abstracts from the meeting for discussion.

Research Didactics: Once monthly didactics on research methodology are part of the fellowship curriculum for the pelvic floor fellows.

Statistics Journal Club: Fellows will be asked to describe the methods used in published articles, to discuss the results, and to outline study limitations and strengths. Articles selected should apply at least one statistical method listed for that session.
